2017 Centerfire Pistol & Pistol-caliber Carbine Plate Matches

Date:

- Saturday 4/15/2017
- Sunday 7/16/2017

These matches are intended to be “ammunition friendly” in these times of tight supply. As a result they have a low round count (minimum of 24 rounds). The matches will be fun and will accommodate any and all shooters from ages 16 to senior. We want everybody to be able to shoot, and the course of fire reflects this. The matches will be open to the general public.

Matches will be held on the outdoor pistol range.

Matches will start with a shooter’s meeting and safety briefing at 9:30 AM.

The first relay will commence at 10:00 AM. The final relay will run at 2:00 PM.

During the match the range **will not remain open** for shooters not competing in the match.

Firearm:

Any safe, legal, centerfire pistol or revolver may be used.

Pistol-caliber carbines may be used, M1 Carbines are not permitted.

All firearms used will be compliant with the NY SAFE act, and as such magazines with a capacity greater than 10 rounds may **not** be used in this competition.

No magnum ammunition permitted.

(Allowed loads at the discretion of the RO - we don’t want to damage the steel targets.)

Divisions:

The matches will be divided into **Pistol**, **Revolver** and **Carbine** categories.

The categories will be further divided into **Iron Sight** and **Optical Sight** divisions.

Course of Fire:

Each match will be different, with target arrays consisting of steel plates, plate racks, poppers, or even a Texas Star. Some Steel Challenge stages will also be used. The match will generally consist of four strings, each consisting of an array of up to six steel targets, at distances ranging from 10 to 25 yards, each string timed separately. The competitor will start at a low-ready position, loaded under command of the Range Officer. At the sound of the buzzer the shooter will attempt to knock down all the plates, reloading as needed to knock down all the plates. Reloads are limited to 6 rounds in each magazine or speedloader.

Scoring:

The shooter's score for each string is the time plus 20 seconds for each target not hit plus any penalties. Shooters may fire as many relays as they want to at each match, within the time constraints of the match.

Shooters will be notified of their scores & standings via the Monroe-Chester Sportsmens Club website.

Prizes:

The final score for the match will be the best score submitted for each shooter for each division.

Prizes will be awarded in the following divisions:

1. Pistol, Iron Sight
2. Pistol, Optical Sight
3. Revolver, Iron Sight
4. Revolver, Optical Sight
5. Carbine, Iron Sight
6. Carbine, Optical Sight

The Lewis System will be used in the determination of prizes.

Cost:

Each relay will cost \$5.
